Title: INHIBITION OF P38 KINASE USING ACTIVITY SUBSTITUTED
HETEROCYCLIC UREAS

REPLY

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action dated August 24, 2005, applicants elect with traverse group V directed to methods utilizing 1,3-oxazole. The traversal is on the basis that the PTO has not established that it would pose an undue burden to examine the full scope of the application. This is especially true with respect to groups V and II, both groups being directed to methods using oxazoles that are isomers of each other, where the terminology for searching would be the same. Applicants request the withdrawal of the restriction, and especially request that at least compounds of groups II and V be searched for the reasons stated above.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted

Osaba Henter, Reg. No. 50,908
Richard J. Traverso, Reg. No. 30,595
